

TEXAS SLED

For Happier Cattle & Healthier Hides

Buzz Off Cattle Oiler

Our oilers allow for visual maintenance. Cattle must access for discharge, eliminating wastage when not in use. Available in 3 sizes:  
 Mini 28" x 8" diameter (4 imp. gal. capacity)  
 4' 49-1/2" x 9-1/2" dia. (7 imp. gal. capacity)  
 6' 76" 9-1/2" dia. (12 imp. gal. capacity)

**Mineral Feeder**  
 Our 2 compartment Mineral Feeder is available as a Hanging Feeder or Free Standing on a wide swivel base. Designed to turn into the wind. 100lb Capacity

Cattle Brushes

Polyethylene brush cores with molded in guards & nylon bristles. Rubber torsion axle gives strength & flexibility. Height is adjustable on the horizontal brushes to adapt to your herd.

Brushes available to mount on post or wall, as a Brush Off w/axle & mounting hardware or as complete units. Brushes can be re-bristled, kits are available.

24' closed

also available full open front

16'

Promold Shelters provide the protection your calves need. Steel frames come with 22 ga. galvanized steel decking. Easy to lift or skid. Peaks at each end are transparent encouraging calves to move deeper into the shelter.  
 8' in depth; 39" at opening; 64" at peak  
 16' Shelter - full open front. 24' Shelter comes closed with 8' opening or full open.

**Horse Shelter**  
 8' x 16' x 10' high at peak  
 10' x 20' x 10' high at peak  
 Roofs have additional 2' overhang.  
 Back 2 Bum rails protect walls.

8' Shelter great for placing over new born calves. 64" at peak. Opening available at peak or side end.

24' Windbreak Panels come with 22 ga. galvanized decking. Legs (12") slide into a receiver tube and are locked into place with a tightening bolt. Panels have a lifting bar & chain loops. Drop down cow bar available.

Our Wind Fence is 24' long x 56" or 66" high. Joins together with tabs & pins.

24' Cattle Shelter with pens and gates shown with optional Curl Down front.

Promold 3 Piece Barn

Also available without pens.  
 Galvanized sheeting reflects sunlight to keep cooler in summer & warmer in winter. Sliding doors attach to roof at both ends..

36'

Maternity Pen comes with Corner Safety Panel

24' Bull Shelter - 10' at peak tapering to 8' at back. Removeable mud flaps

40' Shelter with pens and gates

40' Shelter full open

*Designing & Building  
Water Systems For  
Your Needs.*

Systems come complete with solar panels on adjustable mast, deep cycle batteries in swing out box(es), charge controller mounted in controller box on mast, float switch, pump, wire, hose and safety panel. Wind turbine with fold down tower is optional.

The Wind Turbine is the 'big brother' to Solar. Wind Turbines can generate 24hrs/day. Our towers are easily raised and lowered for transport. Recommended for winter watering & when watering larger herds.

Safety Panel.  
Charge Controller  
mounted in controller box.

12, 24 & 48 volt systems  
come in batteries boxes.

*Solar Panels come on  
adjustable mast*

16' Skidable Solar Water System

Wheel, Axle & Hitch Assembly. Also available for 16' & 24' Solar Systems  
Removable hitch comes with jack.

Printed in Canada

For Smaller Herds

Kick Out Axle version 5' x 2'

**Information Required to Determine  
System Most Suitable to Your Needs.**

Water Source:  
Dug outs, creeks, ponds, river, well

Distance:

4' x 8' Insulated  
Winter Trough with  
5' x 6' Well House

*Secure your investment &  
improve safety around  
your well*

Well houses come with 4" rigid styrofoam. Plywood added to mount instrumentation and components on. Can be placed over well or bored well. 4' x 8' Winter Troughs come with 5' x 6' Well House. 2' x 9' Winter Troughs come with 4' x 6' Well House.

Promold Winter Troughs can be used with our insulated well houses. Set up with a solar system - available in 12, 24 & 48 v. If power is available, a 120 v puck heater (250 or 500 w) can be used.

Pill switch & instrumentations contained inside the well house; when it is cold & windy outside nothing has to be moved to check on or attend to your system. Burn rails around the house exterior add protection against livestock rubbing. Unit comes with skidable frame and lift bar. Lift bar allows system to be moved fully assembled.

For larger herds we recommend adding a Wind Generator and/or Charger for generator hook up. Propane Heater option available for all Winter Systems.

9' Insulated Winter Trough shown with Bolt Down Frame and set up for pressurized line.

8' Insulated Winter Trough shown with Bolt Down Frame and Divider Panel, a 255 gal Insert Tank surrounded by 4" rigid styrofoam on all 6 sides. Troughs available with up to 8 Drink Tubes.

Allow 50 head per 13" drink tube. Plug off unneeded holes in extreme cold. Available in Skidable, Stationary, or Bolt Down Frames. Designed for pressurized lines or solar set-up.

5' x 2' Skidable Trough  
100 imp gal/125 US gal

4' x 8' Stationary Trough  
400 imp gal/500 US gal

4' x 16' Skidable Trough

16' Stationary with 4 way Divider Panels for separating paddocks and running along fence lines.

Skidable Troughs have bale deck adapters & tow bars at both ends of frame. Solar Troughs have bale deck adapters at 1 end.

Pasture Troughs

Our trough bottom is molded to fit over 2" pipe, reinforcing the trough & allowing for footing when needed without damaging trough. Pipe under trough lip ensures it will stand up to pushing without damage. Our troughs give superior access.

8', 16', 24' & 32' troughs available in stationary or skidable frame.

All troughs are available with 2 way or 4 way divider panels.

24' Skidable Pasture Trough

Feed Dispenser Bins

Bottom Discharge 72" high or 88" high (45 taper) 59" high (above) 78" high or 94" high (60 taper) 75" high (16" taller) Liquid & Mini Bins also available

Our Heavy Duty Bunks are constructed with 2" tubing & capped with 2 x 2 angle iron. Poly tubs are mounted in 5' sections to reduce animal turn over. Legs are extra wide, reducing flip over.

**Cattle Oilers &  
much more**

Divider panels allow troughs to be picked up and moved easily
